EDUCATION

Computer Science Engineering
Lovely Professional University - CGPA 8.9

08/2018 - Present   *phagwara, Punjab*

XII CBSE BOARDS
S.R Public School - (97%)

04/2017 - 04/2018   *Orai*

WORK EXPERIENCE

Front end Developer Intern
GirlScript Organization

04/2020 - 10/2020   *Remote*

Achievements/Tasks

- Worked on their IndiaSummit2020 Project. Implemented Hugo in the website and complex parsing of html5 data to JSON to store them efficiently in form of reusable components

Front end Developer Intern
Givemycertificate

05/2020 - 11/2020   *Remote*

Achievements/Tasks

- Worked on building the central dashboards for organizations as well as Users to interact with each other using Bootstrap.
- Worked on their website UI using Bootstrap to improve the bounce rate. After a successful deployment website had seen a huge improvement in traffic.
- Later worked with the backed team to integrate the frontend using PHP.

MERN Stack Developer
Treadapp.co

11/2020 - Present   *Remote*

Fitness Startup

Achievements/Tasks

- Building the V2 product of the company from scratch on MERN stack with the redux store to manage the data flow of 200+ components.
- Making the product on drag and drop concept which will be used by trainer s well as the user for seamless user experience.
- Got an extension offer for 6 months within 2 months of working in treadapp.
- Redesigned the whole schema for the product for better data flow b/w the components.

SKILLS

MERN   HTML5   CSS3   Javascript   NodeJs

React   GIT   Bootstrap   BulmaCSS   Jquery

GSAP   Material Ui   Redux   Firebase

PERSONAL PROJECTS

Cheatmcqs (01/2021 - 01/2021)

- This is a tool for downloading MCQs from sanfoundry (a MCQ questions bank website with content over 10k+ pages)
- Save 95% of the time from being waste during exams.
- No need to manually visit every page and save MCQs by copying and pasting (think if the website has 100pages on that particular topic your day will be ruined in just copy-paste)
- Can be used by all university students. as everyone needs MCQs for exams. Demo - Cheatmcqs

Project Name

EMS - Examination management system (10/2020 - 11/2020)

- EMS is an examination portal for educational institutions that will help them to take the test & communicate remotely with students in this quarantine period. This Examination Portal is made up of top of the MERN stack. EMS supports both web and mobile.
- A highly scalable and industry-ready project used almost every single thing that comes under the MERN stack.
- Almost 60% faster than a typical examination portal.Used every single thing comes under MERN stack (redux, jwt, react-router, etc.). Demo: Link | Github Repo: Repo.

DocsGo - A modern web application for transferring files (09/2020 - 10/2020)

- A Simple file transfer application that can transfer files up to 8gb b/w two users. (Mobile version still in dev)
- Docs go uses WebRTC and socket.io under the hood for real-time peer to peer connection. This project is built on top of MERN Stack.
- DocsGo needs two user to make peer to peer connection. A user can create or join a room through a link. If a user creates a room he will get a unique URL copy the URL and give it to the user with whom you want to share files. That's all need for sharing files. Simple Easy and Fast.GithubRepo: Repo | Demo link.

WhatsApp Clone (09/2020 - 09/2020)

- Online Messaging Platform where one can send messages to others in blazing fast speed.
- Used Redux for data flow to the components, Firebase for real-time database, React Router for Changing the chat rooms , Designed Component for the UI from Scratch, Mobile Compitable, Fully Responsive.
- Client-Side Auto login. used local storage to store the user uid, profile pic. Authentication using firebase through google popup. Github Repo: Repo | Demo link.
